John P. Caufield
Director

The Honorable Kenneth A. Gibson
Mayor, City of Newark
Newark, New Jersey

Dear Sir:

I hereby respectfully submit the Annual Report for the year 1985, outlining the activities of the Fire Department.

The primary goals of the Fire Department continue to be

1. The prevention of unfriendly fires, and
2. The minimizing of life and property loss when unfriendly fires occur.

The most desirable method of reducing life and property loss due to fire is through Fire Prevention, Public Fire Safety Education, and Fire Code Enforcement. Activities in these areas will continue vigorously and will be expanded further.

Of the 28 fire deaths recorded, all occurred where there were no smoke detectors installed, when smoke detectors were not functioning, or where other adverse conditions existed.

The Department is continuing to enforce the Fire Safety Regulations of the State Multiple Dwelling Law, with emphasis on smoke detectors and exit requirements. Although the Department has no legal obligation to enforce this law, an agreement was reached with the New Jersey Department of Community Affairs for processing and prosecution.

During 1985, three 1,000 GPM Pumpers with Tele-Squirt accessories, one 110 ft. Aerial Ladder Quint and one Heavy Duty Rescue Unit were delivered and placed in service. The Fireboat is undergoing a complete overhaul and will be in service in early 1986.

Total fires in the city increased by 4.9% from 1984, while total building fires decreased by 16.8%. The most dramatic decrease was the number of false alarms, showing a decrease of 42.8%. Vacant building fires remained approximately the same following a dramatic decrease in 1984. Outside fires increased slightly reflecting the drought conditions experienced during the year. Vehicle fires increased 29% over 1984 and an Ad Hoc Committee has been formed to study this problem.

Page 2

The Fire Resource Management Study, conducted with Public Technology Incorporated (PTI), is now complete and a committee has submitted its recommendations relating to relocation and consolidation of certain fire facilities.

RECOMMENDATIONS

- * The continuation of fire apparatus replacement program.
- * Replacement of obsolete and poorly located fire stations.
- * The continuation of the fire station rehabilitation program.
- * The acquisition of a Fire Protection Engineer to assist in evaluating fire protection technology that is constantly being developed.
- * The continuation of the water main cleaning and relining program.
- * That members of the Judiciary impose maximum penalties for violations of the Fire Prevention Code, especially where there are violations of the Smoke Detector Code Ordinance, the transmission of false alarms, and the vandalism and illegal opening of fire hydrants.
- * The continuation of the vacant building demolition program.
- * The continuation of Public Fire Safety Education progress involving all city agencies.
- * The continuation of replacing outdated equipment in Fire Alarm Headquarters.
- * The continuation of support for increased and more intensive Fire Code Enforcement Activities.

I hereby heartily commend Fire Chief Stanley J. Kossup, and all the Officers and men under his command, and also the Members of the Administrative Staff, for their dedicated and efficient service rendered throughout the year.

A debt of gratitude is owed to the Fire Department Surgeon and to the Chaplains of the Department for their outstanding efforts in attending to the needs of the members of the Department.

I also extend thanks to the Fire Department's Citizens' Advisory Committee for their efforts and advice, and thanks are also extended to the Members of the Bell & Siren Club for their help and comfort during times of emergency.

On behalf of the Members of the Fire Department, I extend to you, Mr. Mayor, to the Members of the Municipal Council, to the Business Administrator and to all City Department Directors, our sincere appreciation for your interest and cooperation in helping us solve some of our problems.

Respectfully submitted,

JOHN P. CAUFIELD
Director, Fire Department

February 21, 1986

Hon. John P. Caufield, Director
Newark Fire Department
Newark, New Jersey

Dear Sir:

Forwarded herewith is the Annual Report of the Newark Fire Department for the year 1985.

The past year has again shown that, despite the many problems we have faced, we continue to meet all demands and obligations placed upon us and the caliber of fire service the public receives remains at a high level. This can be directly attributed to the dedication to duty displayed by our Members; the cooperation of other Departments; and the high level of leadership and understanding exhibited by the Administration.

As in past years, the City of Newark continued to experience financial problems. Surmounting these obvious restrictions, we continued to implement our methods for improving service to our citizens.

During 1985, three 55-foot "Tele-Sqrts", a 110-foot aerial ladder with pumping capability, and a new heavy-duty Rescue Unit were put into service. Emergency One Company received the award for two 1,000 gallon pumpers and delivery of the units is expected in March of 1986.

Our Fire Alarm System is undergoing modernization, which will provide a new Municipal Fire Alarm Control Panel. Communication will further be improved with the installation of three "Spectra-TAC" satellite receivers which will reduce the dead spots that currently plague our system.

In November, the Administration approved the acquisition of five new heavy-duty station wagons and three sedans.

Our firehouse rehabilitation program continued with the refurbishing of Engine Co. 29; Truck Co. 10; Engine Co. 16; Truck Co. 8; Engine Co. 15; Engine Co. 28; and Engine Co. 14. In addition to this, most of the major work has been completed on the Fireboat.

Finally, the Hazardous Material Emergency Response Plan is ready to be put into service in 1986. Specifications for a "HAZ-MAT" unit were completed

during 1985 and the bid awarded. Further, we are awaiting delivery of HAZ-MAT protective clothing, suppression equipment, medical supplies, communication equipment, etc. The Rescue Squad and Truck Co. 1 have been designated as the HAZ-MAT response units and members have received the necessary levels of training to put this system into effect. The training will be on-going.

Much has been accomplished, and plans are in process to provide our firefighters with the necessary and desirable state-of-the-art equipment.

The Newark Fire Department has embarked on a course that will devote more attention and manpower to Fire Prevention activities in future years. This should further decrease the need for suppression concerns, thus making the City of Newark and its citizenry even better protected from the ravages of fire.

I wish to again extend to all Members of the Department my sincere appreciation for the many efforts they have made in the efficient performance of their duties, often under hazardous and stressful conditions.

I also extend my thanks to Mayor Kenneth A. Gibson, the Members of the Municipal Council, and to all agencies and City Officials who have in any way assisted our Department in meeting its goals of fire prevention and suppression during 1985.

Respectfully submitted,

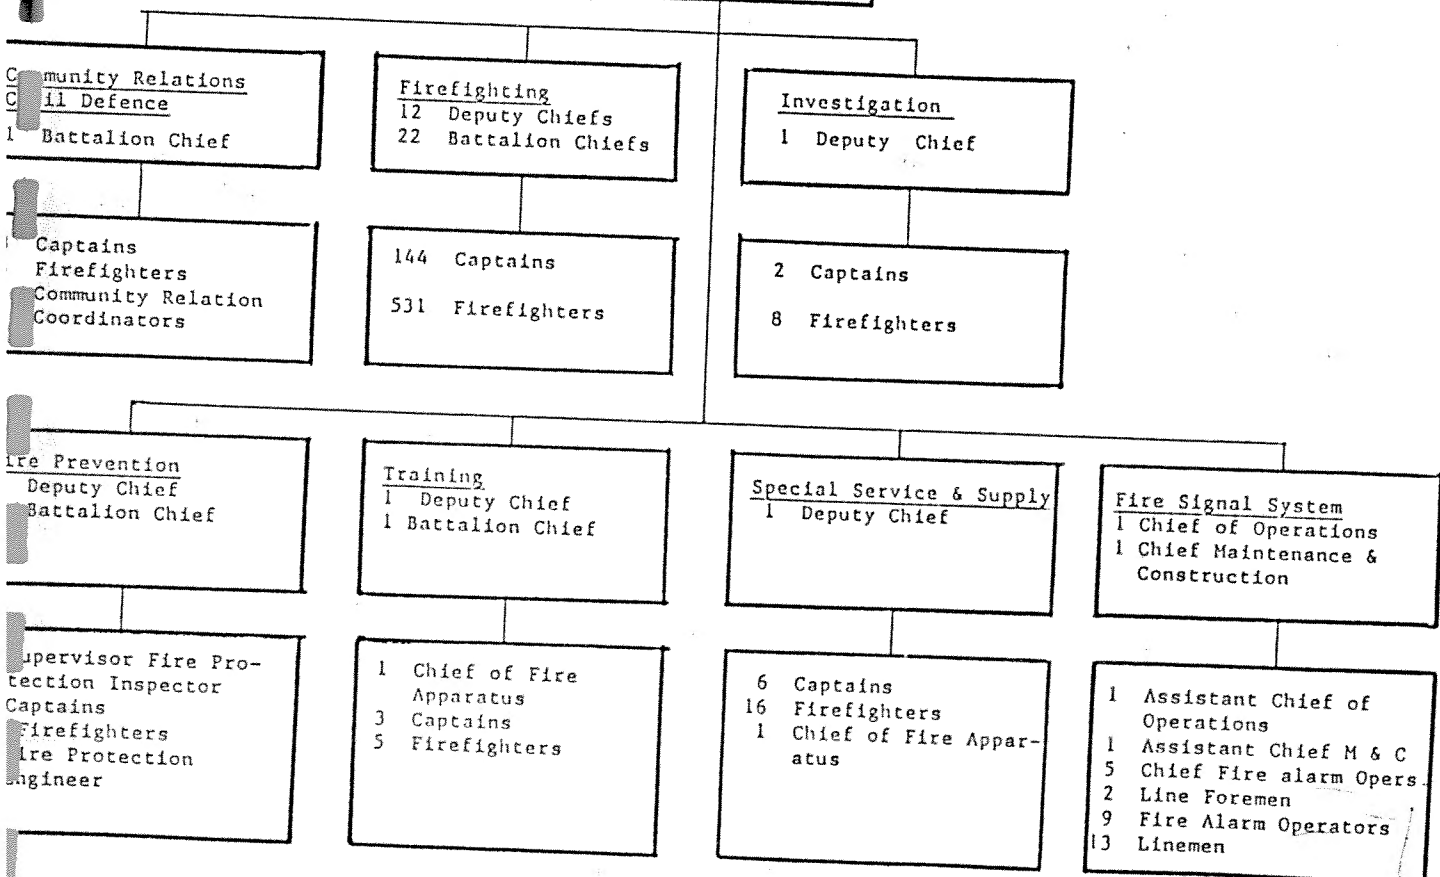

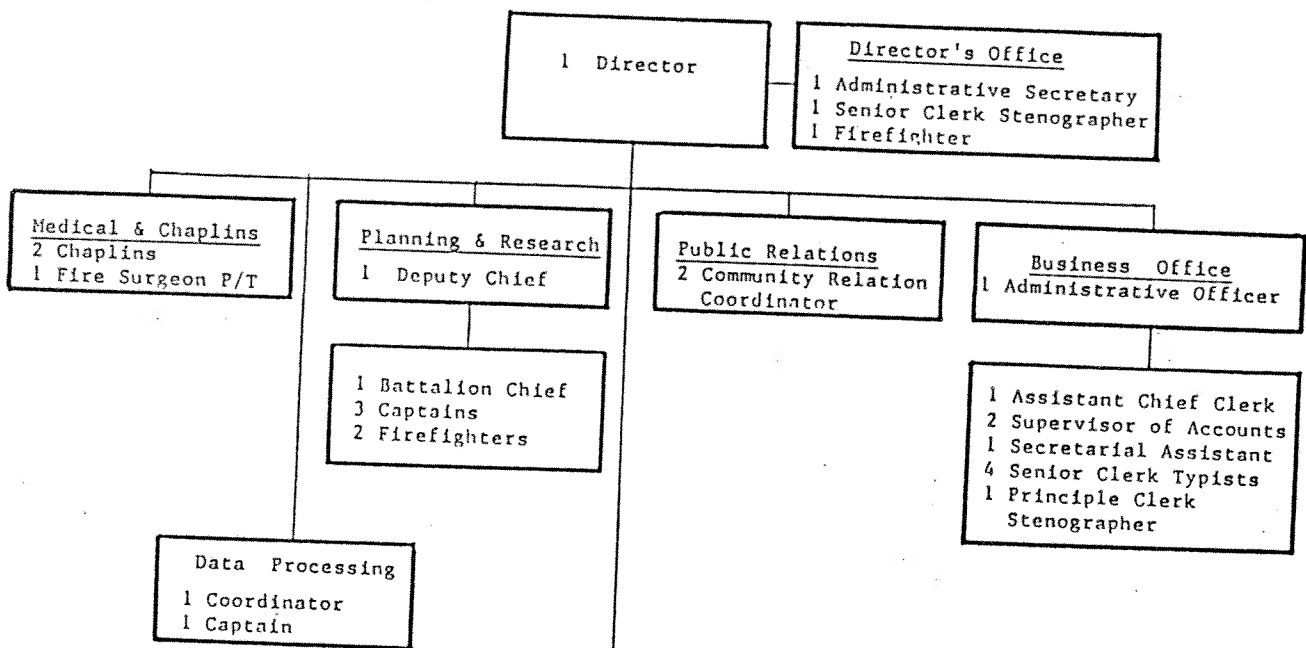

STANLEY J. KOSSUP,
Fire Chief

FIRE PREVENTION AND LIFE SAFETY DIVISION

Annual Report for 1985
Submitted By
William Kingeter, Officer In Charge

1985 was a year that saw some of the most progressive legislation in the history of Fire Safety passed and signed into law. Broad new responsibilities and authorities have been assigned to Fire Safety Inspectors and Fire Officials.

Industrial, Mercantile, Institutional, High Rise, Assembly, certain residential and other Use Groups have been classified as to Life Hazard occupancies and registered with the New Jersey Bureau of Fire Safety.

The New Jersey Uniform Fire Code was adopted by the City of Newark and will be a powerful weapon to be used against the fire problem that exists in the City of Newark.

This legislation has made New Jersey a state with some of the strongest Fire Safety Laws in the United States.

The Fire Prevention and Life Safety Division has cooperated with the New Jersey Bureau of Fire Safety in the past year and will continue to do so in order to implement the new Fire Code in an effort to make the City of Newark a more fire safe place in which to work and live.

SMOKE DETECTORS

Smoke Detectors remain to be the Fire Protection device that will receive the highest priority in the ensuing years just as they have in the past year. Undoubtedly smoke detectors have saved several lives in the past year and strict enforcement of the Fire Codes that call for the installation and maintenance of these Life Saving Devices will continue to be held as one of the highest priorities by the Division.

PUBLIC EDUCATION

One of the most important functions of the Fire Prevention and Life Safety Division is to deliver the message of Fire Safety to the residents of Newark and those that work in Newark.

If the citizens are made aware of the problems that may exist then they may avoid the consequences that a fire can cause.

All requests for speakers were answered and many civic groups, schools, places of employment and other concerned citizens were informed as to Fire Safety.

FIRE PREVENTION AND LIFE SAFETY DIVISION

VACANT BUILDINGS

Through the cooperative efforts of the Fire Department and the Engineering Department many abandoned buildings were demolished and many more made secure from trespass. Vacant buildings have been a source of many fires in the city and they will continue to be closely monitored by the Division.

FIRE RECORDS

The Fire Records Bureau has maintained its high degree of efficiency and has compiled accurate statistics which reflect the fire situation in our City. The request for fire verifications are all answered as quickly as possible in a professional manner significant of a large city Fire Department. All fires concerning injuries and deaths are investigated and an attempt has been made to determine the source of ignition.

PLAN REVIEW

The Division, through the Uniform Construction Code Section, has reviewed all plans for new construction, alterations, additions and major repairs, that were submitted for approval.

The input of the Fire Sub Code Official has assured an increased level of fire protection and means of egress in all areas of construction.

FIRE SUPPRESSION SYSTEMS

Sprinkler Systems, the first line of built-in Fire Defense, were given the usual close monitoring that they deserve. The Fire Prevention Code calls for annual testing and every effort to see that these tests were performed was made.

This program will continue and it will undoubtedly assist in holding down the fire loss.

PERMITS

The permits issued by the Fire Prevention Division continue to be one of our highest priorities, and computerizing the list of permits has aided in keeping the situation well in hand. These permits which aid in monitoring the hazards which exist in the City are an invaluable aid to the Fire Department and will continue to receive a high order of priority. Plans are in the offing to have a computer card for all places of business that require a permit for their operation.

(3)

FIRE PREVENTION AND LIFE SAFETY DIVISION

PENALTY ASSESSMENTS

The New Jersey Uniform Fire Code requires that the Fire Official for the City of Newark, which is the Officer in Charge of the Division of Fire Prevention and Life Safety, assess penalties for unabated violations of the code.

This program was instituted in August and although it has caused a large increase in the work load of the Division it will eventually let the violators of the Fire Code realize that unsafe buildings will bring certain monetary punishment or punitive closing.

DIVISION OF INVESTIGATION

(Arson Squad)

ANNUAL REPORT FOR THE YEAR 1985

submitted by

CAPTAIN EMIL C. NARDONE

The following is a report of the activities of the Arson Squad of the Newark Fire Department for the year 1985:

The complete records of all investigations conducted by the Arson Squad, including photographs, evidence, statements, etc., are on file in the Arson Squad office and will be made available to interested parties where needed for deposition, Grand Jury presentation, criminal prosecution, civil suit or for any purpose demanded by law.

Records of juvenile apprehensions, adult arrests, together with court disposition of these arrests, are on file in the Arson Squad office, and will be made available to the proper authorities on request.

The Arson Squad has maintained a daily association with other bureaus of municipal government, such as the Newark Police Department Youth Aid Bureau, Board of Education, Fire Prevention Division and the Department of Health and Welfare.

Throughout the past year, we have continued our liaison with the New Jersey State Police, Essex County Prosecutor's office, Federal Bureau of Investigation, Alcohol, Tobacco and Fire Arms, New Jersey Motor Vehicle Department, New Jersey and Family Services. These agencies have given us important assistance in many of our investigations and we express our gratitude for this help.

Assisted the Division of Criminal Justice with their In-Service Training Program established under N.J.S.A. 40A: 14-7.1.

Continued to cooperate with Essex County Prosecutor's Office (Arson Task Force) with investigations throughout Essex County.

The Division of Investigation has continued to investigate the illegal dumping of chemical waste.

The Division of Investigation assisted in the training of new firefighters at the Training Center.

Provided speakers for the following engagements: New Jersey State Arson Advisory Committee, New Jersey Bell and the Optimist Club.

Arson Squad (2)

Members of the Arson Squad took the following courses:

Arson for Profit Investigation, given by the Federal Bureau of Alcohol, Tobacco and Firearms. (ATF)

Division of Criminal Justice Arson Investigation Training Course, at the State Police Barracks, Sea Girt, New Jersey.

Advanced Arson Investigation, given by Division of Criminal Justice at Kean College, Union, New Jersey.

Basic Police Course for Arson Investigators, given at Newark Police Academy. All members requalified in the care and use of firearms in this course.

Hazardous Waste Investigation and Prosecution, at the Essex County Police Academy.

SPECIAL SERVICES AND SUPPLY COMPANY
ANNUAL REPORT SUBMITTED BY
JOSEPH L. MAGNUSSON, DEPUTY CHIEF
FOR THE YEAR 1985

The Special Service Division operated on an around-the-clock basis throughout the year, and continued to provide the necessary services of supply and repair to all Fire Department units, and to provide for various services to other city departments and agencies and the community in general. These services are performed by our personnel, some of whom are assigned to tours, and some on a daytime basis only. Planned programs and policies were adhered to, and new programs and procedures have been formulated for the forthcoming year, in an attempt to achieve goals in a most expeditious manner.

Accomplishments and services of various sections in this division during the past year are as follows:

DELIVERY AND PICK-UP SERVICE: Deliveries and pick-ups were made on a morning, afternoon, and evening basis as per schedule, for routine items. Items of an emergency nature were handled immediately on a twenty-four hour a day basis. Items handled were such things as housekeeping supplies, tools, equipment, extinguishers, oxygen and air cylinders, masks, furniture, lockers, rock salt, ladders, hose and other supplies and equipment that required storage and transportation.

Special Service personnel responded to multiple alarms and special calls with fuel for apparatus, air tanks, salvage covers, and when requested, the Hi-Ex Foam Generator, smoke ejector, and foam concentrates.

Special Service is also charged with pick-up of salvage covers at fire scenes, and the maintenance of same, also the distribution of these covers to fire companies throughout the Fire Department.

Special Service responded on request to cordon off buildings deemed to be in dangerous condition, and posting these buildings indicating that a dangerous condition exists at this site.

Fire apparatus requiring repairs or adjustments were picked up and delivered to various locations. Replacements for these apparatus were delivered to the affected fire companies by Special Service personnel.

MASK REPAIR DIVISION: The mask department was charged with the repair and continuing maintenance of all type masks used by the Fire Department. During the past year, this department bench-checked and rebuilt to proper working specifications, over 3,854 Survivair masks. Air tanks were also repaired and maintained.

Special Services and Supply Company (2)

AIR PURIFICATION UNIT: An M&J Associates Air Purification system was used during the past year, in conjunction with an Ingersoll Rand Compressor, Model H15 T4X 20, 5,000 psi capacity. Our original Robbins Air System, with Ingersoll Rand compressor is now a back-up system. Used in tandem, this package is probably one of the best installations in the country. Over 17,038 air tanks were filled during the past year, with over 400 hours of pumping time recorded during the past year. Provision to comply with Federal and State Health laws were made, air samples were tested monthly, throughout the year.

CANVAS SHOP: Canvas items such as mask box covers, chain saw sheathes, electrical generator covers, control pedestal covers for hook and ladder trucks, turret nozzle covers, hose bed covers, foam covers, stretchers, tool kit bags, smoke ejector covers, mask facepiece holders, rope bags, etc., were made in this department, as well as maintenance of these items. Window shades for various firehouses were also repaired or fabricated in this department.

STOCK ROOM: All tools, equipment, devices and supplies, (except those ordered through Fire Headquarters and the Hose Shop), were ordered, received, checked, recorded, stored, and distributed as needed to fire units through the delivery service.

Supply room personnel repaired porto-lites, and hand lights of other types, desk lamps, extension cords, K-12 saws, generators, etc. They also made special belts and straps, tested salvage covers, and made necessary arrangements for the construction and maintenance with the carpenter shop to repair axe and hook handles, mask boxes, skid load panels, hose bed decking, apparatus windshields and canopies, and whatever other needs of the Fire Department requiring the services of the carpenter shop.

This department is also charged with the repair of such articles as portable pumps, explosimeters, and the maintenance of a supply of saw blades. The unit also coordinates the necessary building and maintenance of fire department buildings.

HOSE SHOP: The Hose Shop kept all fire companies properly supplied with hose and fittings. All hose in service was tested, and defective over-age hose was repaired when possible, as were damaged nozzles, valves, adapters, hose fittings, brackets, and other miscellaneous equipment.

Using Oxy-Acetylene welding equipment, many apparatus and equipment parts were repaired, and with this equipment added to the maintenance capability of the shop.

Special Services and Supply Company (3)

GENERAL: Various size metal ladders were received, stored and placed in service when necessary. All metal ladders on all apparatus are now maintained and repaired by Special Service personnel.

The program for inventory and test control of gas pressure cylinders used in the department continued throughout the year. These cylinders included air tanks, oxygen tanks, CO² tanks, dry powder and dry chemical extinguisher tanks, air pressure and water extinguishers, and ker-test cylinders. All cylinders are tested when required, on a continuing basis from the date of manufacture.

Special Service is also charged with the scheduling of all building repairs to Fire Department buildings. This unit also endeavors to work closely on this subject with personnel from the Bureau of Construction. Maintenance of a file system, recording building complaints and disposition of same is also kept by this unit.

Community assistance activities included the following during the past year:

Pumped out cellars and basements and community owned swimming pools.

Provided and operated portable electric generators, lamps, cables, at emergency situations and routinely on request.

Provided extinguishers for protection at various functions, and for demonstration purposes.

Each sub-division of Special Service maintained records and file systems, submitted various required reports consistent with duties, and activities, engaged in necessary clerical work consistent with objectives, correspondence and telephone communications essential to operations, and performed the housekeeping duties necessary to maintain quarters in a clean and presentable condition.

SPECIAL SERVICES AND SUPPLY COMPANY
ANNUAL APPARATUS REPORT FOR THE YEAR 1985
SUBMITTED BY CHIEF OF APPARATUS
WALTER B. MUELLER

In compliance with rules and regulations, the following report is respectfully submitted, outlining the activities of the Apparatus Division for the year 1985:

- * Performed liaison work between the Repair Shop and the Fire Department.
- * Serviced and tested pumpers.
- * Time tested and inspected aerial ladders.
- * Change-over of apparatus was made when necessary.
- * Lubrication, oil changes, and preventive maintenance work was performed periodically.
- * Supervised the keeping of records of repairs to apparatus.

The Fire Department has a fleet of 85 vehicles and one Fireboat, consisting of:

20 Pumpers and 10 Spare Pumpers.

10 Trucks and four spare Trucks.

One Rescue Squad Unit and one spare Rescue Squad Unit.

The remaining vehicles are assigned to Chiefs, the Training Academy, Special Services and Supply Company, the Arson Squad (Investigation Division), Community Relations, Telegraph Division, and Division of Fire Prevention and Life Safety.

In 1985, seven new vehicles were added to the fleet:

one Rescue Squad Unit, three Sqrts, one Quint, and two vans.

Five vehicles were decommissioned during the year:
two Engines, one Truck, one van, and one station wagon.

HOSE DIVISION
ANNUAL REPORT
SUBMITTED BY
CAPTAIN ANTHONY GRAZIANO
FOR THE YEAR 1985

The following report indicates the amount of fire hose in service, hose in reserve, and used fire hose on hand. Also included is the amount of brass work done as of December 31, 1985.

	<u>HOSE INVENTORY</u>	<u>TOTAL AVAILABLE</u>
1" Booster in service	63 - 50 ft. lengths	3,150 ft.
1" Booster in reserve, new	<u>30 - 50 ft. lengths</u>	<u>1,500 ft.</u>
	93 - 50 ft. lengths	4,650 ft.
3/4" Booster in service	34 - 50 ft. lengths	1,700 ft.
3/4" Booster in reserve, new	<u>18 - 50 ft. lengths</u>	<u>900 ft.</u>
	52 - 50 ft. lengths	2,600 ft.

NEW HOSE RECEIVED

2 1/2" 100 % Poly	25 - 50 ft. lengths	1,250 ft.
1-3/4" 100% Poly	50 - 50 ft. lengths	2,500 ft.
1" Booster	16 - 50 ft. lengths	800 ft.
3/4" Booster	<u>4 - 50 ft. lengths</u>	<u>200 ft.</u>
	95 - 50 ft. lengths	4,750 ft.

NEW HOSE ISSUED

HOSE REPAIRED

4 1/2" 15 ft. length	1 length	4 1/2" 10 lengths
4" 50 ft. lengths	22 lengths	4" 48 lengths
3" 50 ft. lengths	4 lengths	3" 16 lengths
2 1/2" 50 ft. lengths	33 lengths	2 1/2" 30 lengths
1-3/4" 50 ft. lengths	100 lengths	1-3/4" 97 lengths
1 1/2" 50 ft. lengths	6 lengths	1 1/2" 27 lengths
1" 50 ft. lengths (booster)	1 length	1" (booster) 4 lengths
3/4" 50 ft. lengths (booster)	<u>1 length</u>	<u>3/4" " 19 lengths</u>
	168 lengths (8,400 ft.)	251 lengths

HOSE TESTED

MISSING FAILED REPLACED

4" 229 lengths,	11,450 ft.	5	4	9
3" 69 lengths,	3,450 ft.	2	1	3
2 1/2" 284 lengths	14,200 ft.	11	17	28
1-3/4" 198 lengths	9,900 ft.	31	14	45
1 1/2" 109 lengths	5,450 ft.	16	5	21
		(replaced 20 lengths with 1-3/4" hose)		
1" Booster, 63 lengths	3,150 ft.	0	0	0
3/4" Booster, 34 lengths	<u>1,700 ft.</u>	<u>0</u>	<u>0</u>	<u>0</u>
	49,300 ft.	65	41	106

Total number of valves, nozzles, adapters, equipment, and miscellaneous articles issued for the year 1985 is 84. Repaired: 178.

SPECIAL SERVICES AND SUPPLY
PERFORMANCE REPORT
1985

Number of alarms answered	559
Number of pickups and deliveries made	23,549
Gasoline distributed at fires (gallons)	322
Motor oil distributed at fires (gallons)	19
Diesel oil distributed at fires (gallons)	381
Electric generators used	24
Number of lights used	47
Floodlight cable used	25
Window shades	143
Cellars pumped out	157
Hours spent pumping out cellars	416
Port-o-Lites repaired	690
Liquid foam distributed to companies (gallons)	725
Port-o-Lite batteries distributed to companies	1,106
Oxygen cylinders refilled	146
Survivair M.S.A. air cylinders refilled	17,038
15 lb. CO 2 extinguishers refilled	253
Masks repaired	3,854
Canvas covers for bags, boxes, decks, repaired	78
Air tanks repaired	222
Dry powder extinguishers refilled	172
Smoke ejectors on special calls	9
Hi-Ex expansion foam unit on special calls	6
Ladders repaired	89
Ladders repaired (feet)	3,383
Movement of apparatus	97
Metal hooks assembled and repaired	320
Salvage covers picked up	178
K12 and K1290 saws repaired	489
Generators repaired	62
Salvage covers delivered	206

TRAINING DIVISION
ANNUAL REPORT SUBMITTED BY
ALFRED FREDA, DEPUTY CHIEF
FOR THE YEAR 1985

The Training Division is responsible for all phases of Fire Department training. This responsibility includes training of recruit firefighters, in-service fire personnel and industrial fire brigades. The realization of these responsibilities is accomplished through course material presented by the National Fire Protection Association, Standard 1001, and programs of instruction postulated by the International Fire Service Training Association.

The following major training programs were completed under the direct supervision of Training Division Personnel:

MAJOR TRAINING PROGRAMS

S.C.B.A., Bell Alarm, Deputy & Battalion Chiefs	1/8/85	- 1/18/85
Elizabeth Fire Department Search & Rescue	1/16/85	
18th Probationary Course Group 1, Part 2	2/4/85	- 2/15/85
18th Probationary Course Group 2, Part 2	2/18/85	- 3/1/85
New Sqrts Training, Engine Co. 7, 9, 18	2/23/85	- 3/17/85
East Orange Fire Department S.C.B.A.	3/27/85	
Companies' response to PATH Railroad & critique of maps..	4/10/85	- 4/18/85
Maplewood Fire Department Probationary Class S.C.B.A. Search and Rescue	5/8/85	
Operation of New Quint Truck Co. 1, all tours	4/22/85	- 5/3/85
Recruit Lineman C.I.M., C.P.R., S.C.B.A., Safety Organization.....	6/3/85	- 6/7/85
City Dog Wardens - Defensive Driving.....	6/11/85	
Recruit Fire Dispatcher - Fire Signals, Chain of Command Fire Organization	6/17/85	
Haz-Mat Training Level A, all tours	6/18/85	- 6/28/85
Protective Clothing for Haz-Mat Rescue, all tours	8/3/85	
Drug & Alcohol Abuse Recognition.....	10/16/85	- 10/25/85
D.O.T. Haz-Mat Tanker Seminar And Demonstration	10/15/85	
Elizabeth Fire Department Probationary Class Search & Rescue, S.C.B.A.....	10/17/85	
Haz-Mat Training Level B, all tours	10/29/85	- 11/4/85
Recruit Training (one man)	11/4/85	- 11/11/85
Emergency Haz-Mat Response Workshop (A.I.D. Inc.)	12/9/85	- 12/11/85
West Orange Fire Department S.C.B.A.	4/23/85	

TRAINING DIVISION (2)

SPECIALIZED TRAINING

Rutgers Health Fair
McKinley School
N.J.I.T. Health Fair
Rutgers University C.P.R.
American Oil
Consolidated Trucking
St. James Hospital

New Jersey Bell
Western Electric Company
Beth Israel Medical Center
Milon Myer Company
Schenhaus Company
United Community Corporation

DEMONSTRATION OF:

Ear-Mark Communication	Vetter Air Bags
New York Rescue Rope	Haz-Mat Computer System
Vestal Foam Truck Wash	Trellborg Haz-Mat Suit
Scott Air Pac 1 Hour	Motorola Radio
Pro-Tech Haz-Mat Suits	Air Systems For Haz-Mat Suits

A very important aspect of this Division's responsibility is the training of industrial fire brigades and security forces of other government agencies. Because of the water restrictions placed upon us by the state government, our normal operations in this area were somewhat curtailed. Training in First Aid, Firefighting and related subjects was offered to the following agencies:

University of Medicine & Dentistry of New Jersey
Saint James Hospital
Western Electric Company
New Jersey Bell
Beth Israel Medical Center
Gateway Security
Newark Auxiliary Firefighters
Essex County Correction Officers

Since we have assumed the responsibility of certification of all drivers of fire apparatus, we have gone forward with a well established testing program. This has taken us away from the traditional pass, to one of having some drivers return several times in order to meet our high standards. This includes driving, operating pumps, hydrant hook-ups, aerial operations and placement at fires. In 1985 we have certified fifty-five firefighters.

The Audio-Visual Unit continued to operate under standard operating procedures. This includes filming actual fires for training purposes. All levels of the Haz-Mat Training were filmed for future training; they were edited with our new equipment and are of professional quality.

TRAINING DIVISION (3)

The Fireboat John F. Kennedy, was returned to our dock, after extensive overhauling. We are anticipating an early return to service. We now are preparing plans to retrain the men in the operation and maintenance of the boat.

In cooperation with Foundation for Fire Safety, the Training Academy served as the hub for a study on fire deaths. This study is called Post Mortem Protocols. Once again, Deputy Chief Alfred Freda, Captain Eugene Anderson and Dr. David Barillo responded to all Signal 200's. I am happy to announce that two papers have been published in prestigious Medical Journals on the Newark study.

Under Fire Chief Stanley Kossup's orders, the Commanding Officer of the Training Academy assumed the role of coordinating the new Haz-Mat Team. Under the Fire Chief's direction, many meetings were held, concerning equipment purchases, training matters and all aspects of operating a Class One Haz-Mat Team. I would like to extend praise to members of this team who devoted many hours of their time for this purpose: Deputy Chief Alexander McGrory, Captain Anthony Apostolico and Walter Janicek. When our team becomes fully operational, our unit will become a blueprint for others to follow.

The Commanding Officer and the Staff at the Training Academy, wish to extend our heartfelt thanks and gratitude to the Director, John P. Caufield, and to Fire Chief Stanley J. Kossup, for their progressive leadership and wholehearted support. Without this enthusiastic leadership, it would have been impossible to achieve our objectives.

oOo

TRAINING DIVISION
ANNUAL REPORT SUBMITTED BY
JAMES E. MORGAN, DEPUTY CHIEF
SAFETY OFFICER
FOR THE YEAR 1985

Since I took over the duties of Safety Officer the following activities were performed:

1. Conducted numerous meetings with members of The Safety Committee regarding accidents, Workers Right to Know Act, New Jersey Public Employers Occupational Safety and Health Act, also City of Newark Contingency Hazardous Material Response Plan.
2. Have worked with the Department of Engineering, members of the Training Division, Chief Kossup and Deputy Chief Mc Grory, Louis Berger Associates and Dresdner Associates on the following:
 - A. Contingency Response Plan for Hazardous Material in the City of Newark.
 - B. Assisted in writing specifications for vehicles, communications, support equipment and spill and leak control.
 - C. Assisted in formulating training for Haz-Mat teams Rescue 1 and Truck 1 and incident coordinators. Also, other City, County, State and Federal Agencies.
3. All accident reports were reviewed and classified by myself according to the Fleet Accident Type Classification. During the year 1985 we had thirty-six accidents, fifteen incidents and eight accidents resulted in injuries to eleven firefighters and three civilians. The largest number of accidents was caused by our personnel hitting doors, entering or leaving quarters, or hitting parked cars while turning or striking other stationary objects.

Attended a meeting regarding Accident Review Board, headed by Brenda J. Veltri, Personnel Director.

oOo

TRAINING DIVISION
ANNUAL REPORT SUBMITTED BY
JAMES E. MORGAN, DEPUTY CHIEF
WATER OFFICER
FOR THE YEAR 1985

In the year 1985, in my capacity as Water Officer, I have performed the following activities:

1. Processed 9,000 computer cards sent in during semi-annual hydrant inspections.
2. Notified Mr. Don Wittish, Water Department Engineer, regarding hydrant repairs. We have repaired 709 hydrants.
3. I have worked closely with Mr. Gerrit DeVries, Data Processing Coordinator, regarding up-to-date print-out showing the current status of all hydrants in the city. The current hydrant status lists an average of 300 hydrants per day out of service.
4. Most of the hydrant repairs have been performed by private contractors.
5. I have received hundreds of calls from the general public regarding open hydrants and hydrants in need of repair. The Water Department was notified of the problems.
6. Attended meeting regarding Water Emergency Program at Director Alvin Zach's office.
7. Director Alvin Zach has assisted in the purchase of 100 new hydrant wrenches and caps.

oOo

TRAINING DIVISION
ANNUAL REPORT SUBMITTED BY
ABNATHY ALFONSO MASON, CAPTAIN
RECRUITMENT OFFICER
FOR THE YEAR 1985

During 1985 the Newark Fire Department conducted the latter portions of a Minority Recruitment Program; recruiting commenced on October 1, 1984, when applications were made available from the New Jersey Department of Civil Service. The deadline for submitting an application, to be eligible for the examination process, was November 23, 1984.

Members of the Newark Fire Department assigned to this Minority Recruitment Program -

Captain Abnathy Alfonso Mason, Planning and Research
Firefighter Lonzia Ellison, Truck Co. 9
Firefighter James Berdiel, F. S. S. - Operations
Firefighter George Livingston, Truck Co. 10
Firefighter Arnum Wapples, Truck Co. 9

distributed and displayed 2,000 recruitment posters and distributed more than 5,000 applications to individuals, or members of audiences of recruitment presentations made before social, civic, cultural, political, religious, educational organizations and institutions. Recruiting was also conducted at parades, large gatherings and mass assemblies.

Preparatory training for the written and performance portions of the New Jersey Department of Civil Service Examination for Municipal Firefighter - Newark (M2839F) was conducted at the Newark Fire Training Center. Preparatory training for the written portion of the examination process began on November 19, 1984 and concluded on March 8, 1985. During this period fifty-four sessions were conducted. These sessions were attended by 1,100 persons. In addition to the course of materials that was intended to assist applicants in successfully competing in the written portion of the examination process, they were exposed to and coached in test taking procedures.

Preparatory training for the performance portion of the examination process began on April 8, 1985, and concluded on July 19, 1985. Fifty-three preparatory training sessions were conducted for the performance portion of the examination process. These sessions consisted of applicants making "trial runs" on a course that simulated the New Jersey Department of Civil Service's examination test course. 1,043 persons attended this phase of preparatory training.

Training Division
Recruitment Report (cont'd) (2)

The endeavors of the members of the Newark Fire Department assigned to this Minority Recruitment Program resulted in a New Jersey Department of Civil Service list for prospective candidates for the Newark Fire Department of 471 persons, with the following ethnic characteristics:

Blacks	225	47.8%
Whites	186	39.5%
Hispanics	50	10.6%
Persons that did not state an ethnic group	10	2.1%
	<hr/> 471

PLANNING AND RESEARCH DIVISION
ANNUAL REPORT SUBMITTED BY
JOHN J. VALENT, DEPUTY CHIEF
FOR THE YEAR 1985

During the year 1985, the Planning and Research Division provided staff assistance as directed by the Director and Fire Chief. Assistance was also provided to other agencies when requested.

Areas of activity included, but were not limited, to the following:

CAPITAL BUDGET PREPARATION AND MONITORING

1979 Capital Budget (Project Remaining)

Construction of Butler Building for relocation of Special Services and Supply to location adjacent to 17-19 Prince Street. The status of this project is being reassessed for possible consolidation with other units.

1980 Capital Budget:

Reconstruction of Fire Stations:

- (a) 1028-1030 Bergen Street
- (b) 269-277 Park Avenue
- (c) 69-71 Vesey Street

3. Internal and External Rehabilitation and Security System:

- (a) Fire Headquarters - 1010 - 18th Avenue

4. Replacement of Emergency Radio Communications System.

Planning and Research Division (3)

SICK LEAVE AND INJURY REPORTING SYSTEM

Sick and injury leave reports are monitored and coded daily. Reports pertaining to sick and injury leaves are presented to the Director and Fire Chief on a weekly basis.

MONITORING OF ON-DUTY MANPOWER

Daily roll call records are maintained for all companies. Manpower projections are determined for vacation periods and emergencies, along with overtime needs to ensure adequate manpower.

SCHOOLS, CONVENTIONS, SEMINARS

A file and schedule of all upcoming Fire Service educational events are maintained. Arrangements for travel, registration and expenses are handled through this Division.

FUEL CONSERVATION (Motor Vehicles)

All motor vehicle fuel consumption with the Department is monitored; reports are submitted to the Director and Fire Chief.

AFFIRMATIVE ACTION

This Division submits quarterly reports to the Human Rights Commission concerning all Department activities in the following areas: appointments, retirements, demotions and resignations. In addition, annual reports of all employment activities and salary listings on a twelve month basis from July 1st to June 30th of the following year, are forwarded to the Human Rights Commission.

MULTIPLE DWELLING FIRE SAFETY INSPECTION PROGRAM

In January 1985, the Planning and Research Division instituted a program of inspecting all multiple dwellings in the city for violations of A.C. smoke detectors in common areas, battery smoke detectors inside dwelling units and second means of egress, for compliance with the New Jersey Hotel and Multiple Dwelling Act. This program was developed in cooperation with the Division of Fire Prevention and Life Safety and the Bureau of Housing Inspection of the New Jersey Department of Community Affairs. To date over 4,500 buildings have been inspected initiating more than 2,000 violations. An additional re-inspection program was started in July 1985 involving 1,200 re-inspections with all records, monitoring, coordination, and liaison with all involved being coordinated by this office.

The Planning and Research Division performs many additional functions as directed by the Director and Fire Chief, and in addition, responds to requests from other inter-departmental and intra-departmental agencies. Reasonable requests from other organizations are acted upon according to priority and availability of resources.

COMMUNITY RELATIONS DIVISION
ANNUAL REPORT SUBMITTED BY
ROBERT E. FITZPATRICK
BATTALION CHIEF
FOR THE YEAR 1985

During the year of 1985, the Community Relations Division, (Headquarters 20), continued to be involved in various activities and programs which strengthened the rapport between the public and the Fire Department.

Headquarters 20 has continued its services to the victims of fires and other disasters by maintaining its contact with both the public and private agencies. The resources of the charitable organizations supported by the United Appeals, were called upon to assist numerous victims. Agencies of the city and county provided many victims with the essentials or necessities of life. The Community Relations Division has concentrated on providing the public with effective services both day and night, every day of the year.

Over the years, hot weather has brought hydrant problems, and this past year was no different. The illegal use of hydrants on the street is a serious problem because it brings about reduced water pressure and damage to the hydrants. The shutting of illegally opened hydrants becomes more essential as the days get hotter, because the number of hydrants opened is also compounded by the number of hydrants being vandalized, and this causes hydrants to be put out of service. Many man-hours were spent turning off illegally used hydrants.

During the past year, the Community Relations Division continued to honor requests to speak before teachers, pupils and parents at schools on Fire Safety and careers in the Fire Service. Films were shown to classes at meetings throughout the city. Fire prevention materials were disseminated to those attending classes and meetings. Demonstrations were also given at different locations in the city for the public's edification. The Newark Board of Education should be applauded for its efforts concerning Fire Safety for both their employees and the students they serve.

The Fire Auxiliary has continued to improve their documentation of services given to the city. The number of times that auxiliary firefighters have presented themselves, has improved on records. The number of man-hours at fire houses and alarms responded to, has been better documented. It should also be recognized that many auxiliary firefighters respond to fires from their homes.

Director John P. Caufield has continued with his policy of having the Community Relations Division support and assist charitable agencies in performing their duties to the public. The Community Relations Division assisted in charity fund drives by helping with logistical matters, assisted by volunteers, and providing security for same.

DATA PROCESSING UNIT
ANNUAL REPORT FOR 1985
SUBMITTED BY
GERRIT L. DeVRIES
DATA PROCESSING COORDINATOR

The Data Processing Unit of the Planning and Research Division has completed various computer applications, which include making the following printouts for Department use:

1. A list of inspections and updating of conditions of hydrants in the city.
2. Overtime reports on a weekly basis.
3. Personnel listings and history as needed.
4. Sick reports on all employees.
5. Compensation claims on file.
6. Monthly vacant building reports.
7. Printout of issued permits.
8. Printout of Smoke Detector compliance.

Members of the Data Processing Unit have performed all the activities and duties as required by the Director and the Fire Chief of the Fire Department.

PUBLIC RELATIONS DIVISION
ANNUAL REPORT FOR THE YEAR 1985
SUBMITTED BY
LONNIE TUCKER, COOMUNITY RELATIONS COORDINATOR

The following report is herewith respectfully submitted outlining the activities of the Fire Department's Public Relations Division.

The Fire Director's Office of Public Relations has continued to keep the public informed of various events in Fire Prevention and Life Safety through the use of the news media, print media, billboard displays, and weekly reports in newsletters within the community.

The message of Smoke Detectors, Fire Prevention and Life Safety, and the new Fire Code plan of the Fire Director, who is the Chairman of the New Jersey State Fire Commission, has brought the attention of other agencies, who will join the Newark Fire Department in its efforts to bring the knowledge of Fire Prevention and Life Safety, to other people in our State.

In 1985, the Fire Director's Office of Public Relations Division, worked with other cities, state and federal agencies, which provided assistance to fire victims.

As the liaison to the Fire Director and the Fire Chief, I responded to fires as requested, set up media interviews, assisted the Bureau of Investigation, and carried out other assignments as needed.

The Public Relations Division is in charge of issuing information in the form of releases to the news media and other news gathering sources, upon request.

I wish to extend my most sincere thanks to the Mayor's office, the Fire Director, the Fire Chief, and all members of the Fire Department, for their cooperation throughout the year.

MEDICAL DIVISION
ANNUAL REPORT SUBMITTED BY
MORRIS HALPER, M.D.
FOR THE YEAR 1985

During the year of 1985, as part-time Fire Department Surgeon, my basic availability to the Fire Department was two days per week in addition to any special consultation requested by the Director or Fire Chief.

Medical records to members on injury or sick leave were routinely examined and an evaluation of their condition and progress was submitted to the Fire Chief.

During 1985, a number of candidates considered for appointment to the Fire Department have been examined by me. Recommendations and findings concerning the candidates' health were submitted to the Director and the Fire Chief.

I wish to take this opportunity to thank all the Officers and Members of the Fire Department who have cooperated with me in providing service to members of the Fire Department.

oOo

ANNUAL REPORT
SUBMITTED BY THE
CATHOLIC CHAPLAIN
REV. HORTON J. RAUGHT
FOR THE YEAR 1985

The following is a report of my activities as Chaplain of the Newark Fire Department for the year 1985.

Responded to multiple alarms when summoned. When necessary I accompanied injured firefighters to the hospital from the fire scene.

Visited the various hospitals in the area to attend to members of the Fire Department who were ill or injured in the line of duty. Visits were also made to members of their families when notified of their illness.

Attended all swearing-in ceremonies of new Fire Department personnel as well as all promotional ceremonies.

Attended wakes for deceased members of the Fire Department or members of their families. I participated at funeral services of members of the Department, both active or retired.

I was available for and participated in conferences with members of the Department or their families.

I conducted the 62nd Annual Memorial Service for deceased members of the Newark Fire Department. This Annual Memorial Mass and Service was conducted at St. Rose of Lima Church, Newark, New Jersey.

Attended Fire Prevention demonstrations and all other activities pertaining to Fire Department affairs and those sponsored by the Fire Department Historical Association and The Bell and Siren Club, Inc.

I wish to express my deep and sincere gratitude to Director John P. Caufield, Fire Chief Stanley J. Kossup, and to all the Officers and Members of the Newark Fire Department for the friendship, courtesy and cooperation they have shown me.

oOo

ANNUAL REPORT
SUBMITTED BY
THE JEWISH CHAPLAIN
RABBI HORACE L. ZEMEL
FOR THE YEAR 1985

As Jewish Chaplain of the Newark Fire Department, I have, to the best of my ability, answered fire calls when summoned, attended the sick and dying, participated in public functions, and in general, lent myself in full capacity as clergyman over all those to whom I minister, in whatever contingency my services were needed.

Once again, the making of this report gives me the opportunity of letting you know that I am cognizant of the many courtesies extended to me in the performance of the duties of my office, for which I am extremely grateful.

May I wish you, and through you, all members of the Fire Department, a year marked by peace in the world, order in our government, health in the home, and success in every worthwhile effort.

oOo

THE BELL AND SIREN CLUB, INC.

ANNUAL REPORT
FOR THE YEAR 1985

The Bell and Siren Club, organized in 1949, is a non-profit, voluntary group, dependent upon membership dues, social functions, and the contributions of the firefighters of the communities it serves to finance its activities and acquire and maintain its equipment.

Membership is limited to 50 active members whose conduct must adhere to the official Club Code of Operations. Public officials and candidates for public office are not eligible for membership.

The Club serves free refreshments of coffee, iced tea, hot tea, hot soup, etc., from a mobile canteen unit, "The Rig", to firefighters at the scene of a fire, inside the fire lines.

The Rig is owned by the Club, but it is quartered with Rescue 1, courtesy of the Mayor and the Newark Fire Department.

During 1985, the Club responded to 104 fire emergencies, comprised of:

- 53 Second Alarms
- 6 Third Alarms
- 11 Special Calls
- 6 Multiple Alarms in East Orange
- 2 Multiple Alarms in South Orange
- 4 Multiple Alarms in Bloomfield
- 2 Multiple Alarms in West Orange
- 9 Multiple Alarms in Irvington
- 5 Multiple Alarms in Orange
- 1 Special Call to Elizabeth
- 1 Mutual Aid Special Call to Passaic
- 1 Mutual Aid Special Call to Jersey City
- 3 Parades

Services rendered included:

5,532 cups of coffee	1,000 cups of hot chocolate
4,536 cups of iced tea	442 cups of Gatorade
374 cups of hot tea	137 cups of cold drink
151 cups of water	90 cups of orange juice
158 cups of beef broth	67½ lbs. of beef stew
366 doz. cookies	24 hamburgers
63 doz. doughnuts	309 cigarettes

We extend our thanks and appreciation to the elected officials of the City of Newark, to Fire Director John P. Caufield and to Fire Chief Stanley J. Kossup, and to all Officers and Members of the Newark Fire Department, for their help and assistance during the past year.

FIRE AUXILIARY SERVICE
ANNUAL REPORT SUBMITTED BY
CAPTAIN CHARLES J. MANARA
FOR THE YEAR 1985

In 1985 there were 15 new applicants for the Newark Fire Auxiliary Fire Service; 2 men left the unit for personal problems and 2 men are now on the list for Newark Firefighter.

We have 160 active members, and 100 semi-active members.

Two men were promoted to the rank of captain.

The auxiliaries reported to fire houses a total of 700 times and spent 4,100 hours on duty; they responded to alarms and spent 403 hours working at fires; they participated in drills in and out of quarters for a total of 90 hours.
